

NOTICE OF PERFORMANCE TEST
CHROMIUM ELECTROPLATING
WI DNR FORM 4500-157 (6/96)

Initial performance tests must be conducted by July 23, 1996 for decorative chrome plating operations and July 24, 1997 for hard chrome plating and chrome anodizing operations. You should also have a Test Plan available, in case your air inspector requests it.

You should submit this Notice of Performance Test to your local DNR air inspector sixty days before the scheduled test date. Inspectors' addresses are at the end of this form.

For more information, request *Facts about. Maximum Achievable Control Technology (MACT) Standard for CHROMIUM ELECTROPLATING* from the your DNR air inspector or the Small Business Clean Air Assistance Program at (608) 264-6153 or (608) 267-9214. You can also refer to 40 CFR Part 63, Subpart N-National Emission Standards for Chromium Emissions from Hard and Decorative Chromium Electroplating and Chromium Anodizing Tanks.

It is not the Department's intention to use any personally identifiable information from this form for any other purpose.
